AMENDMENT TO CORRECT SEQUENCE LISTING

Sir:

Applicants submit herewith a substitute paper and computer-readable version of the sequence listing for the above captioned patent application. Applicants submit that it has come to their attention that the last amino acid residue in both SEQ ID Nos. 1 and 2 is erroneously listed as a phenylalanine (Phe). Applicants note that figure 1, as originally filed with the present application, correctly lists this residue as leucine (Leu). Therefore, Applicants submit a substitute sequence listing to correctly list amino acid residue 365 in both SEQ ID Nos. 1 and 2 as Leu. Applicants submit that this error was made without any deceptive intent.

Applicants submit that as the correct sequence of SEQ ID Nos. 1 and 2 was present as figure 1 in the specification as originally filed, this amendment does not introduce any new matter. Applicants therefore request that the substitute sequence listing filed herewith be entered in the above captioned application.

Date:

October 30, 2002

Respectfully submitted,

Name: Kathleen M. Williams
